Refreshment Center 2

Model 784

Refreshment Center 2, for snacks and cold cans. It increases productivity, boosts morale and serves lunch.

SureVend™ is a remarkable new guaranteed product delivery system.

The type of innovation you've come to expect from National Vendors. Infrared technology detects whether the vended product has dropped, guaranteeing that your customers either receive their product, or get their money back. It keeps customers happy and profits healthy.

Merchandising Flexibility
Sell candy and snacks on the same shelf. Motors couple easily & dividers slide out to convert to either candy or snack.

Easy Loading
Each shelf tilts forward at 45°, making it easy to reach even the upper shelves.

Continuous Price Rolls
Just dial up the correct price. No more little price tabs that fall out, get lost, or are hard to find.

Electronic Features
Self diagnostics-description appears in plain English on credit display when cabinet door is opened, and any failures are stored and shown in order as corrected.
Data can be recalled for total machine sales and each individual selection.

Each selection can be individually priced.
User friendly menu selection pad.

Sales Promotion

Winner Mode builds customer traffic with pre-determined products and interval (from 1:10 to 1:9,999)
Selected items can be discounted with time-of-day functions or offered 'Free Vend.'
Scrolling message display communicates promotional/special events to customers.

Can Module
Easy front loading system - just roll the cans into place. The can module provides 8 selections with 136 unit capacity.

Selections

16 Select Standard Model (138 candy, 90 snack/pastry, 136 cans)
Gum and Mint - 5 selections
Cold Drinks - 8 flavor selections
